

Accreditation in Languages for Business (French, German, Spanish)

at RHB Sixth Form

If you want to use your language skills in a practical way and stand out in the modern job market, or relevant university courses, the Accreditation in Languages for Business is a fantastic opportunity. Available in French, German, and Spanish, this qualification shows universities and employers that you can communicate confidently and effectively in real-world business situations.

The course is designed to be highly practical and career-focused. You will:

- Use your language in real business scenarios such as meetings, emails, presentations, and negotiations.
- Develop cultural awareness, learning how to navigate business customs and etiquette in different countries.
- Strengthen communication skills, building confidence in speaking, listening, reading, and writing in ways that are directly relevant to the workplace.

This elective is ideal if you enjoyed languages at GCSE and want to apply them in a professional context. It's especially suited to students considering careers in business, international relations, law, or travel. The accreditation carries 16 UCAS points, adding real academic value to your portfolio, while also giving you skills that will help you stand out in university applications and job interviews.

The course runs throughout Year 12 with five lessons per fortnight. It provides a clear, structured path to developing professional language skills, culminating in a recognised qualification that demonstrates your readiness to thrive in international settings.

By taking the Accreditation in Languages for Business in French, German, or Spanish, you are preparing yourself not just as a student of language, but as a future global professional.
